

## lightness/darkness poem

lightness that sheds  
darkness walking behind  
lightness not needing to believe  
darkness on its First Day  
lightness' gravity sleeping  
darkness in loneliness  
lightness faintly  
darkness waiting around that corner  
lightness whispering  
darkness in its own absence  
lightness lifting  
darkness on the edge  
lightness leaving it all to fall  
darkness hiding inside  
lightness breathing across the sky  
darkness erupting from inside  
lightness breezing  
darkness encroaching  
lightness without withal  
darkness with everywhere to bide  
lightness in its own place of light  
darkness in Dante's lie  
lightness palmed by a cloud  
darkness' nightmare smile  
lightness nuancing in colourimetry  
darkness at 0,0,0  
lightness luminously  
darkness literally  
lightness ending brightly
